## Arts Uncovered - 'Gary James McQueen' (Shoot 1/1)

From: Sky Arts

## **To: Arts Uncovered Crew**

Thank you all for your hard work on shoot and keeping in mind mindful Sky's strong commitment to becoming net zero carbon by 2030.

I am delighted to reveal we have been provided with the Albert Sustainable Production logo to be added to the credit roller. **We have achieved the first Albert sustainable production certification for an in-house Sky Arts production**.

Footprint Data:Filming Spaces: 0.0158Total tonnes CO2e = 0.11Travel & Transport: 0.089Tonnes CO2e per hour = 0.65Non-Filming Spaces: 0.0021Offset Cost = £0.97Materials: 0.0012

Our final carbon footprint has now been calculated, as below:

Based on these findings, it is clear the key area of focus for the next instalment of *Arts Uncovered* needs to be around Travel and Transport – these are some of the changes we hope to implement:

23

**PUBLIC TRANSPORT!** Covid-19 restrictions dependant please could all travelling to location consider using public transport, car-pooling or walking/cycling where possible – especially for recce days when kit is not required.

All employees and contractors are responsible for working towards our objectives. If you have any suggestions of how to make our production more sustainable, we welcome your input!

Please do your bit to help save our planet and avoid printing this document!

**ECO FRIENDLY TAXIS!** Where public transport not a viable option, we will utilise London's only sustainable car service, Green Tomato's.

**GREEN BIKES!** For trips across London we will utilise City Sprint's courier bike service for transporting our rushes.

**LOW ENERGY LIGHTS!** We will endeavour to use as many low-energy and LED fixtures as we can across our filming spaces.

Initiatives we will continue to implement on each shoot:

**NO PRINTING!** Continue to eradicate paper wastage by issuing all contracts through DocuSign and sending only e-call sheets and schedules.

**BRING YOUR OWN!** – Continue to bring reusable bottles/hot drink cups to all locations.

**ERADICATE FOOD WASTE!** Continue to make food at home and bringing to location in reusable Tupperware - to cut out any single-use plastics.

**CONCIOUS TRANSPORT DECISIONS!** – If own transport must be used, we will continue to make sure all idle vehicle engines are switched off.

**VIRTUAL MEETINGS!** – Continue to prioritise phone/video meetings over physical meetings to combat unnecessary travel.

All employees and contractors are responsible for working towards our objectives. If you have any suggestions of how to make our production more sustainable, we welcome your input!
